Aman Kaur

I am determined, motivated and driven to be successful web developer and utilise latest technologies to develop variety of web applications. In addition to my knowledge base, I actively seek out new technologies and stay up-to-date on industry trends and advancements. This has allowed me to stay ahead of the curve and deliver exceptional work to all of my employers, including those I've worked for on a project basis. I am solution focused, well organised and excellent in working with others to achieve common goals.

Work Experience

Customer Service

Woolworths | March 2015 - Present

- Serve and assist customers in professional and efficient manner to provide the best possible customer experience.
- Operating POS system, count and reconcile change/float manually for COB reporting.
- Process transactions, customer orders and refunds.
- Communicate and coordinate with variety of internal departments to resolve customer queries.

Software Engineer

EvacGuide | 2017 - 2018

- Improve and make changes in existing features and develop new features in Php Laravel framework using html, css, Javascript and bootstrap.
- Source control and continuous integration via Github command line
- Designed the company's online tech page
- Prepare and execute test cases in Php Unit framework. This is very useful to run automates test script after every change in the code to test full functionality of application Design, execute and fetch database queries. Read write values in databases including user creation and encrypted passwords. Mysql and mariaDB

Academic History

Panjab University, India

Bachelor in Computer Applications

Tafe NSW

Build your Digital Literacy with coding (2020)
